Executive Management & Boss	Warehouse & Logistics Core	Unified Admin 2.0 (Production)	10 Live UI Views Attached

1. Executive Overview & Two Distinct Operational Streams

CORE ARCHITECTURE

SolarKits Warehouse Panel me do bilkul transparent aur independent streams banayi gayi hain taaki stock refill karne aur customer orders deliver karne me zero confusion rahe:

STREAM A: CUSTOMER SALES ORDER DELIVERY FLOW

Route: New Orders → BOS Kit Assembly → Out for Delivery → Track Delivery & POD

Account Manager dwara confirm kiye gaye specific customer orders ka material inward verify karna, BOS Kit buffer stock se allocate ya assemble karna, E-Way Bill aur gadi photo ke sath security gate clearance dena, aur destination par customer OTP se delivery confirm karna.

STREAM B: WAREHOUSE BULK STOCK REPLENISHMENT

Route: Material Inward (Accounts Indents & OEM Purchase Orders)

Warehouse godown me panels, inverters, cables aur structures ka bulk stock replenish karna. Gate par aane wale truck/fleet ki transport details verify karna, QR gun scanner ya gate challan se inward karke live inventory me stock add karna.

⚡ END-TO-END WORKFLOW FLOWCHART (ACCOUNT CONFIRMATION SE CUSTOMER DELIVERY TAK)

1. **Stage 1: New Orders Queue (Order Intake & Material Inward)** — NEW ORDERS
   Customer order received from AM • "INWARD MATERIAL" button • Qty & Rack location check

↓

2. **Stage 2: BOS Kit Assembly & Stock Allocation** — BOS KIT ASSEMBLY
   Buffer Stock Check (7 Kits Ready) • "⚡ ALLOCATE FROM READY STOCK" ya 5-Step Assembly Line

↓

3. **Stage 3: Out for Delivery (Vehicle Loading & Gate Clearance)** — OUT FOR DELIVERY
   Multi-EPC Ungrouping • Vehicle/Driver assign • E-Way Bill AM request • Rear photo • Gate Pass

↓

4. **Stage 4: Track Delivery & Dual POD Hub** — TRACK DELIVERY & POD
   4-Stage Journey Timeline • Customer 6-Digit OTP Handover ya Destination Photo POD

1 Stage 1: New Orders Queue (Customer Order Intake & Verification)

Account Manager se Kya Details Aati Hain?

URL: /WAREHOUSE-MANAGEMENT-PANEL/NEW-ORDERS

Account Manager dwara order approve hote hi New Orders queue me complete customer order dossier synchronize ho jata hai:

1. CUSTOMER & LOCATION

- Client / EPC Name & Contact Phone
- Delivery Address, District & Pincode
- State Route Filter (Maharashtra, MP, etc.)

2. FINANCIALS & PAYMENT

- Payment Status Badge (`PAYMENT DONE`)
- Advance % Received & Balance Amount
- Discrepancy Alerts (e.g. `1 DISCREPANCY`)

3. SLA & OPERATIONAL STATUS

- Overdue SLA timer (e.g. `OVERDUE (2D)`)
- Inward Progress Bar (e.g. `42 / 44 Pcs - 95%`)
- Target Dispatch Date & Priority

Warehouse Action: "INWARD MATERIAL" Button Dabakar Kya Hota Hai?

INWARD VERIFICATION MODAL

Order card par blue **"INWARD MATERIAL"** button dabane par modal khulta hai jisme warehouse operator yeh kaam karta hai:

⚡ **Fill All Pending Button:** Operator ko har component par quantity type nahi karni padti. Ek click me saari expected quantities received me fill ho jati hain.

QC Damage & Shortage Counters: Agar transit me koi component tuta ya gayab mila, toh Damage/Missing counters me quantity daalte hi system discrepancy report save kar leta hai.

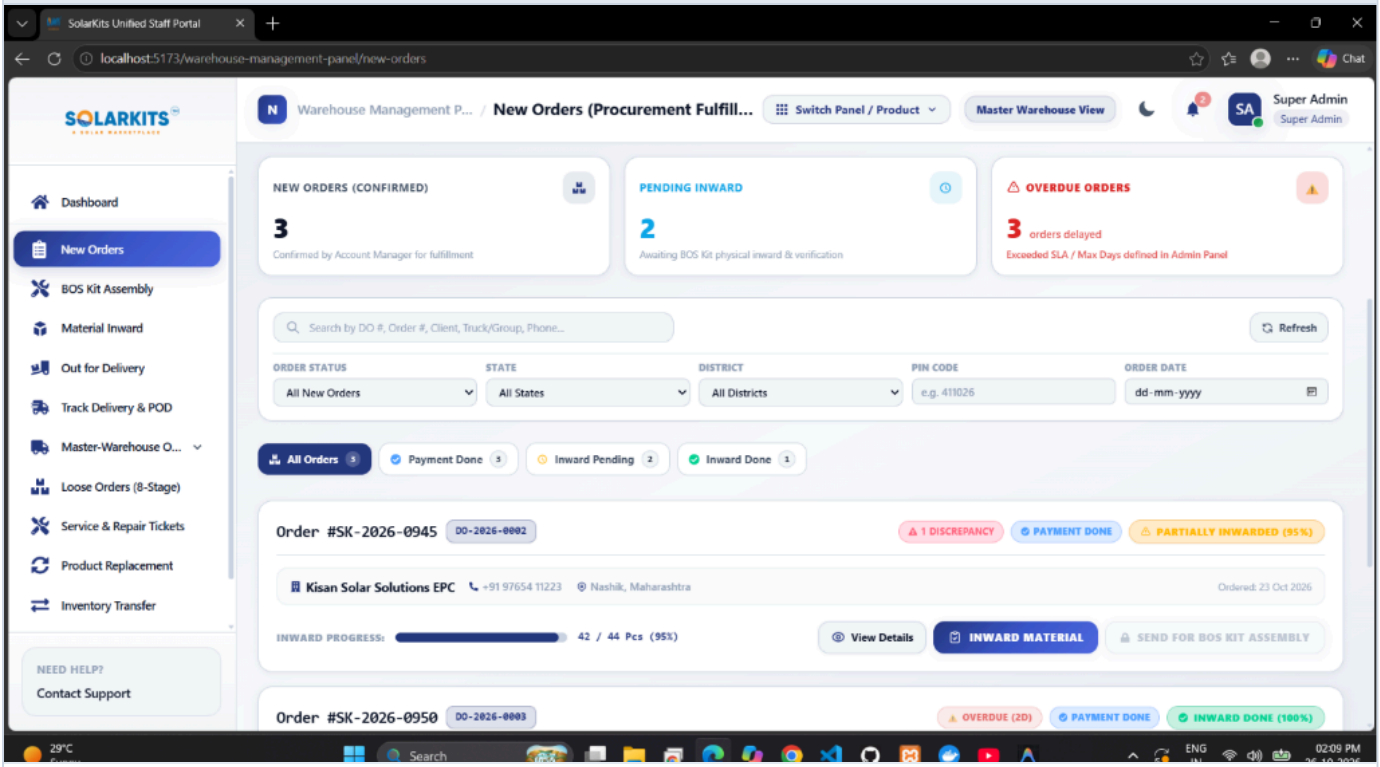

RACK LOCATION & STATUS PROGRESSION

Storage Rack / Bay: Material kis godown rack par rakha gaya (e.g. `BAY-A1-04` ya `RACK-C2`).

Partial vs Complete Inward:

- **Partial Inward:** Agar kuch components pending hain, card par orange badge `PARTIALLY INWARDED (95%)` dikhta hai.
- **Complete Inward:** Saara maal milte hi green badge `INWARD DONE (100%)` ho jata hai aur **"SEND FOR BOS KIT ASSEMBLY"** button active ho jata hai!

SCREENSHOT 1: NEW ORDERS DASHBOARD (CUSTOMER ORDERS INWARD QUEUE) Image: media_1793004003984.png

UI Analysis: Top me 3 Boss KPI Cards hain: *New Orders (3)*, *Pending Inward (2)*, aur *Overdue Orders (3)*. Niche Order `#SK-2026-0945` (Kisan Solar Solutions EPC) dikh raha hai jisme Inward Progress 95% (42/44 Pcs) hai aur right me **INWARD MATERIAL** button active hai.

2 Stage 2: BOS Kit Assembly & Warehouse Buffer Stock Allocation

Boss Requirement: Ready Buffer Stock Allocation vs Live Assembly

URL: /WAREHOUSE-MANAGEMENT-PANEL/BOS-KIT-ASSEMBLY

BOS (Balance of System) Kit me DCDB box, ACDB box, MC4 connectors, Solar DC wire, Earthing rod aur Lightning Arrester aate hain. Yeh screen 2 powerful parts me banti hui hai:

PART 1: 📦 ORDER-SPECIFIC ASSEMBLY & STOCK ALLOCATION

1-Click Fast-Track Allocation (Ready Stock Se):

Top me green pill dikhati hai: *"WH Ready Stock: 7 Kits Available"*. Har customer order card par purple banner aata hai: *"Warehouse Buffer Stock: 7 Kits Ready in WH"*.

> **Green Action Button:** Operator **" ⚡ ALLOCATE FROM READY STOCK"** button dabata hai. System warehouse ready batch (e.g. `WH-BOS-5KW-B04`) order ke sath bind karke order ko bina kisi delay ke turant **"Kit Ready for Dispatch"** mark kar deta hai!

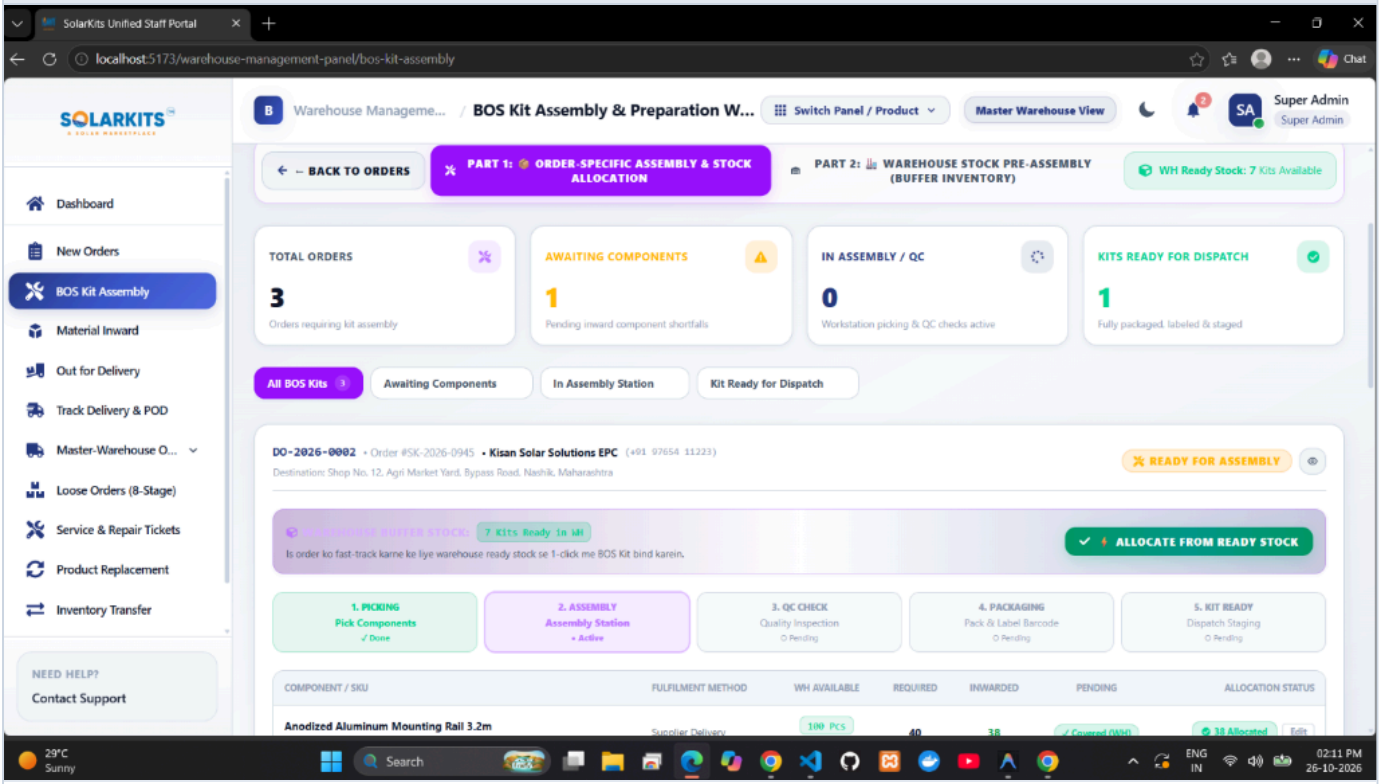

PART 2: 🏭 WAREHOUSE STOCK BUFFER PRE-ASSEMBLY (MAKE-TO-STOCK)

Advance Me Ready Stock Banakar Rakhna:

Warehouse team idle time me inwarded raw materials (rails, clamps, cables, boxes) se advance me 3 Standard Catalog Models pre-assemble karke buffer store karti hai:

- **5kW Standard Residential Solar BOS Kit:** 4 Kits Ready in Bay 2
- **3kW Residential Compact Solar BOS Kit:** 2 Kits Ready in Bay 1
- **10kW Commercial Solar BOS Kit:** 1 Kit Ready in Bay 3

SCREENSHOT 2: BOS KIT PART 1 – ORDER-SPECIFIC ALLOCATION & 5-STAGE STEPPER — Image: media_1793004105897.png

UI Analysis: Top right me green badge *WH Ready Stock: 7 Kits Available* hai. Order `DO-2026-0002` par ⚡ **ALLOCATE FROM READY STOCK** button dikh raha hai. Niche 5-Stage Stepper hai: *1. Picking (Done) → 2. Assembly (Active) → 3. QC Check → 4. Packaging → 5. Kit Ready*.

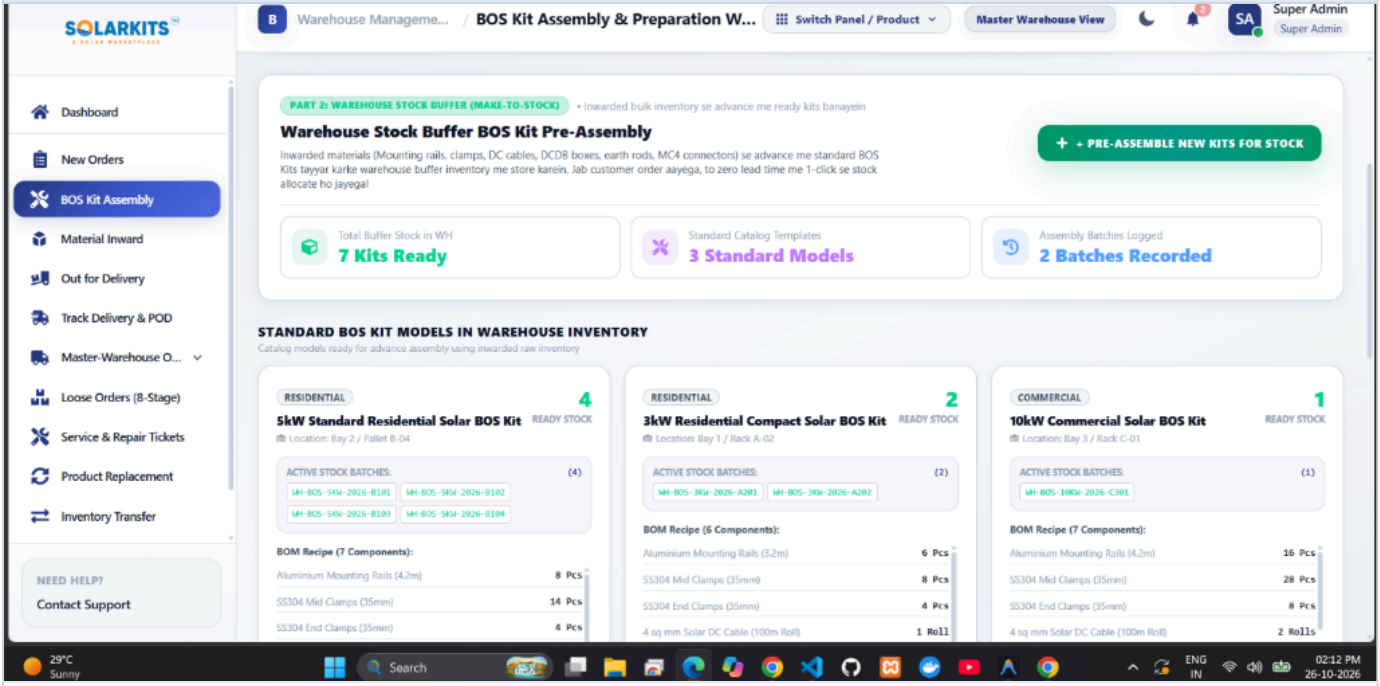

Part 2 Deep-Dive: Buffer Stock Models & Raw Materials Inventory

WAREHOUSE BUFFER (MAKE-TO-STOCK)

Jab customer order aane se pehle warehouse me raw materials hote hain, toh warehouse staff in standard models ko assemble karke stock me store karta hai:

SCREENSHOT 3: BOS KIT PART 2 – STANDARD CATALOG MODELS IN WAREHOUSE INVENTORY

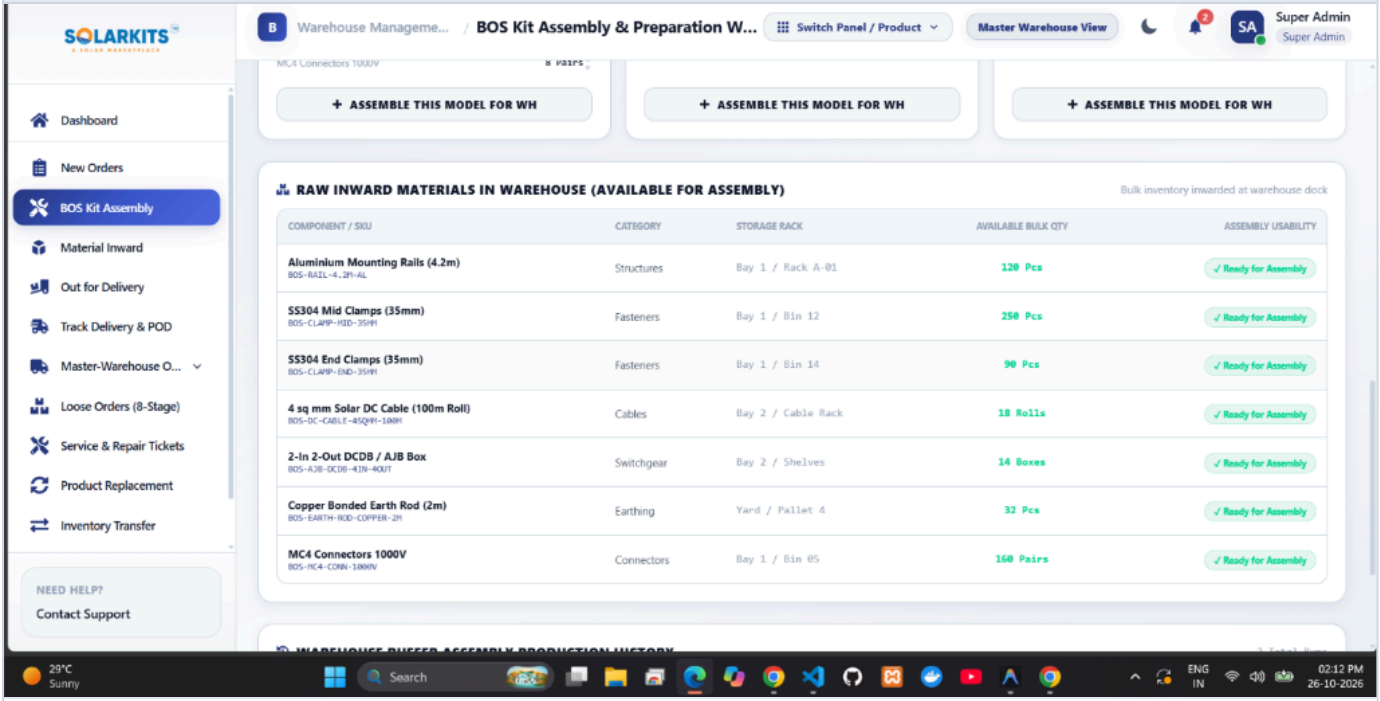

Image: media_1793004159579.png

UI Analysis: *Total Buffer Stock in WH: 7 Kits Ready*, *Standard Catalog Templates: 3 Models*. Teen card models: 5kW Standard (4 Ready), 3kW Compact (2 Ready), aur 10kW Commercial (1 Ready). Har model par *+ ASSEMBLE THIS MODEL FOR WH* button hai.

SCREENSHOT 4: BOS KIT PART 2 – RAW INWARD MATERIALS AVAILABLE FOR ASSEMBLY

Image: media_1793004174189.png

UI Analysis: Godown me available bulk components: Aluminium Rails (120 Pcs), SS304 Mid Clamps (250 Pcs), End Clamps (90 Pcs), 4 sq mm DC Cable (18 Rolls), 2-In 2-Out DCDB Boxes (14 Boxes), Copper Earth Rods (32 Pcs), MC4 Connectors (160 Pairs) - Sabhi ✓ *Ready for Assembly* mark hain.

3 Stage 3: Material Inward (Warehouse Bulk Stock Replenishment Station)

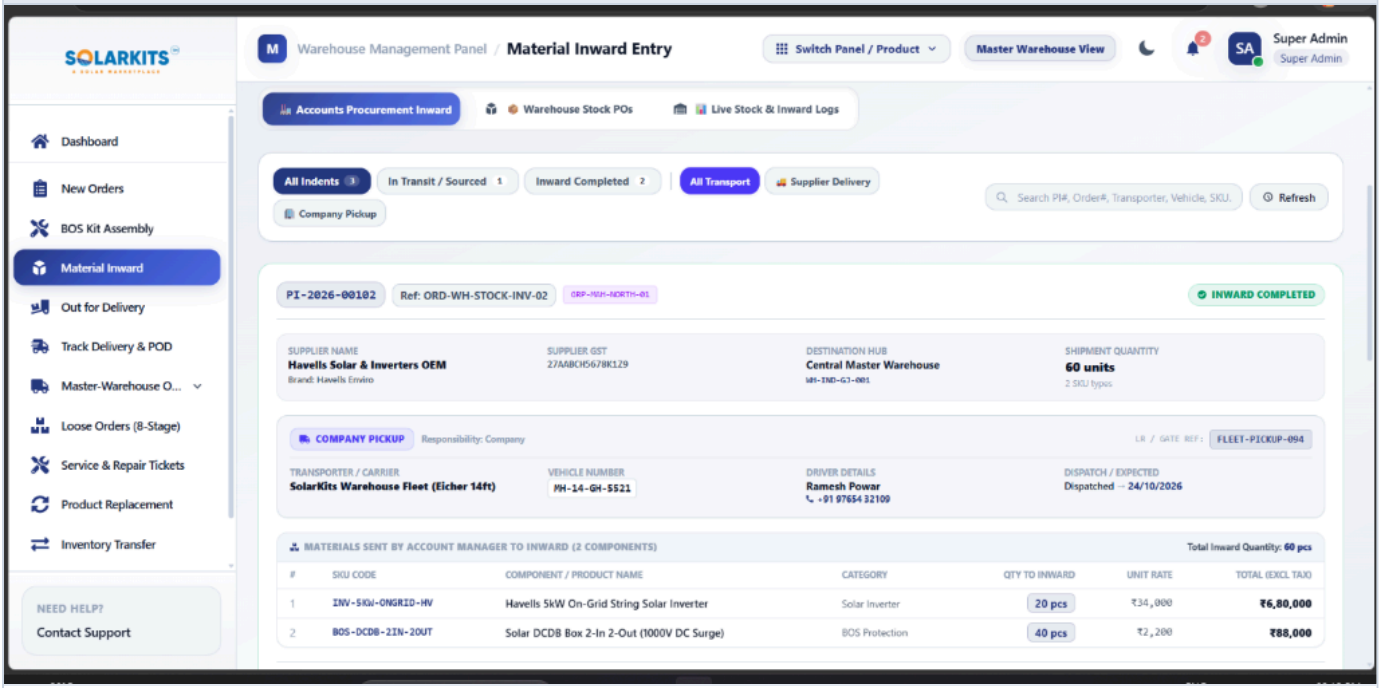

Godown Me Bulk Maal Utarna (Indents, POs & Live Stock)

URL: /WAREHOUSE-MANAGEMENT-PANEL/MATERIAL-INWARD

Yeh screen solely **warehouse godown me bulk panels, inverters aur kits add karne** ke liye bani hai. Isme 3 primary tabs hain:

TAB NAME	PURPOSE & DETAILS	AVAILABLE ACTIONS
🚛 Accounts Procurement Inward	Accounts dwara approve kiye gaye bulk Purchase Indents (PI). Poori transport transparency: Gadi number, driver mobile + direct call, transporter, LR gate pass, expected date.	⚡ ONLINE INWARD (QR/SCANNER GUN) 📋 OFFLINE INWARD (GATE CHALLAN & TAX INV)
📦 Warehouse Stock POs	Warehouse ke direct OEM supplier purchase orders (Havells, Redren, Mindra). Delivery due date, overdue alert tags, PO PDF & Tax Invoice PDF links.	COMPLETE DELIVERY BUTTON (Payment hone ke baad active hota hai)
📊 Live Stock & Inward Logs	Godown ka real-time inventory dashboard. Total SKUs, live pieces, booked vs available pieces, average invoice rate, aur past GRN history receipts.	Audit log viewing, SKU details modal, real-time stock levels check.

SCREENSHOT 5: MATERIAL INWARD TAB 1 – ACCOUNTS PROCUREMENT INWARD (LOGISTICS DETAILS) `Image: media_1793004274082.png`

UI Analysis: Indent `PI-2026-00102` (Havells Solar OEM). Blue ribbon shows *COMPANY PICKUP*, Transporter: *SolarKits Warehouse Fleet (Eicher 14ft)*, Vehicle: `MH-14-GH-5521`, Driver: *Ramesh Powar (+91 97654 32109)*, Gate Ref: `FLEET-PICKUP-094`. Items: 20 pcs Havells Inverters & 40 pcs DCDB Boxes. Status: ✓ *INWARD COMPLETED*.

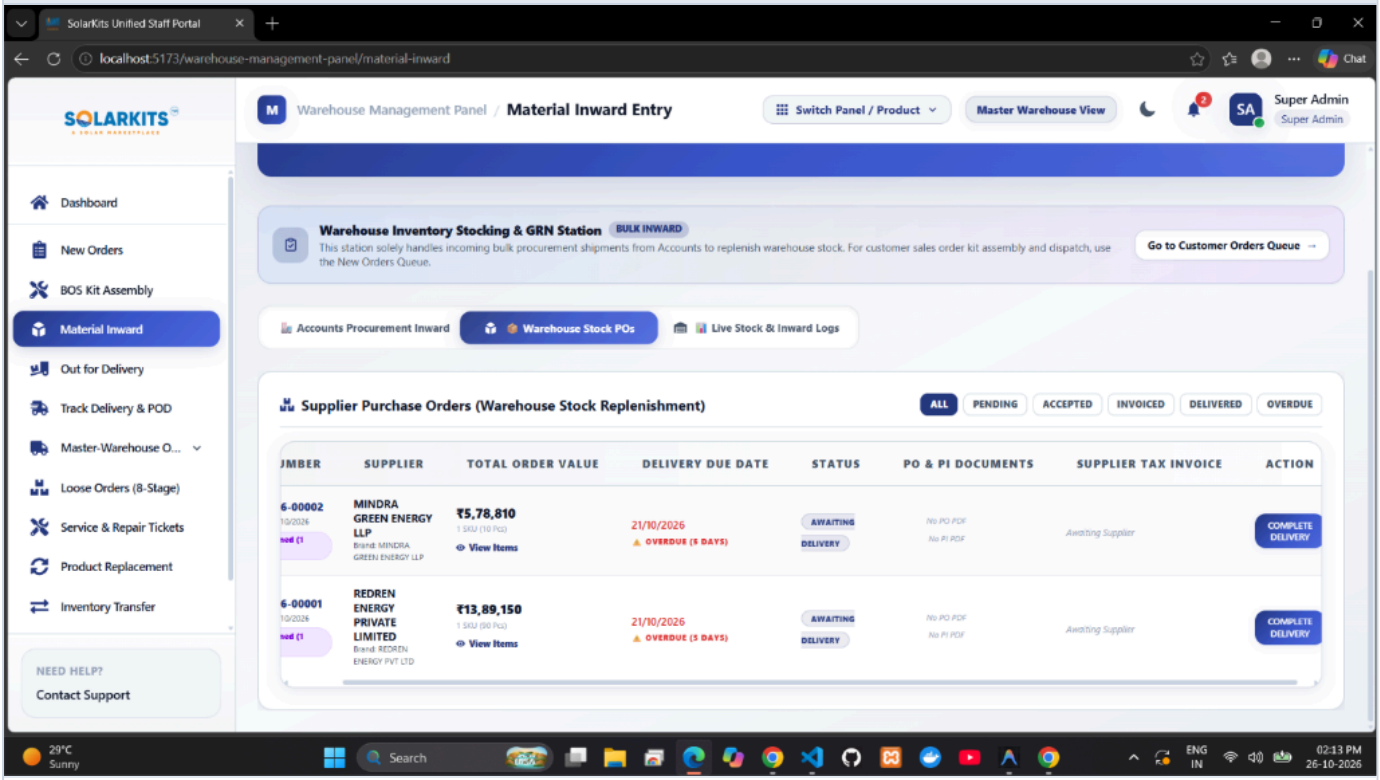

Material Inward: Supplier POs & Live Stock Dashboard

TAB 2 & TAB 3

Supplier purchase orders track karna aur warehouse inventory ke real-time numbers dekhna:

SCREENSHOT 6: MATERIAL INWARD TAB 2 – SUPPLIER PURCHASE ORDERS (WAREHOUSE REPLENISHMENT)

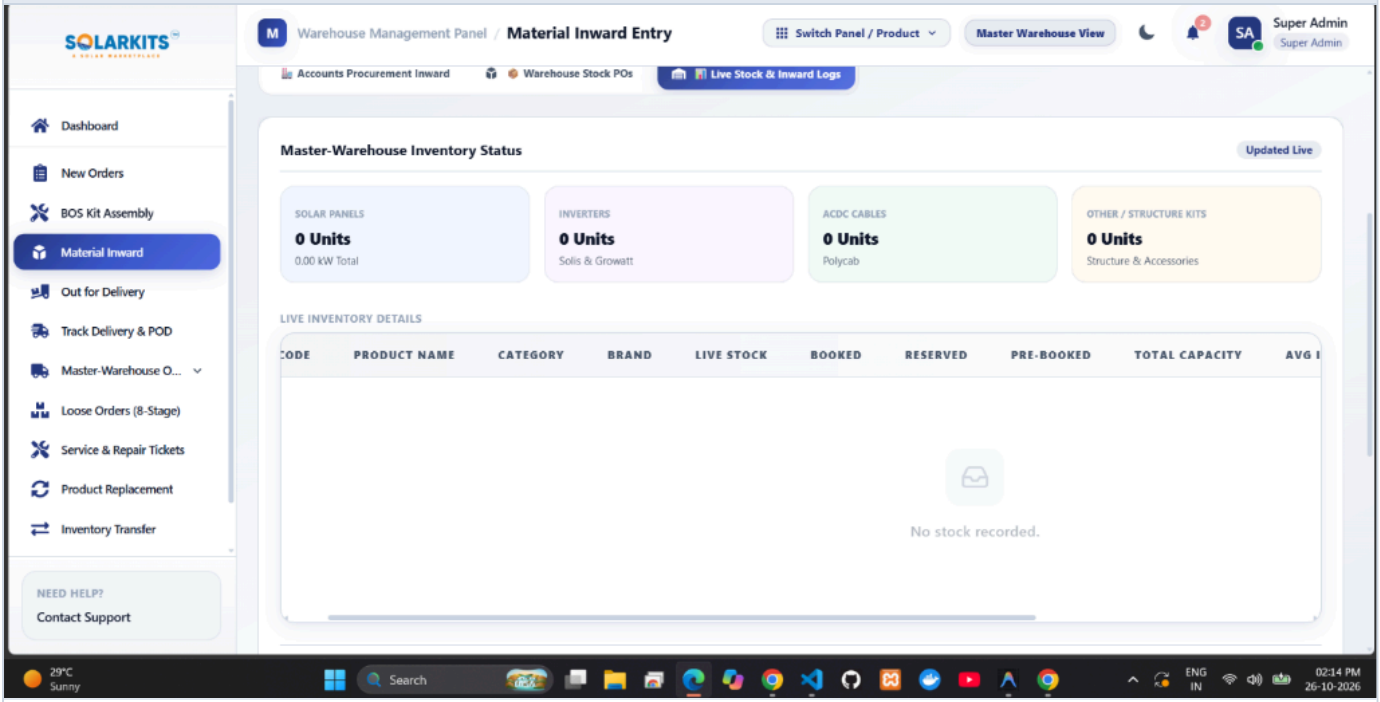

Image: media_1793004197698.png

UI Analysis: Supplier PO table: Mindra Green Energy (₹5,78,810) aur Redren Energy (₹13,89,150). Red alert tags: ⚠ *OVERDUE (5 DAYS).* Right side action column me **COMPLETE DELIVERY** button active hai.

SCREENSHOT 7: MATERIAL INWARD TAB 3 – LIVE STOCK STATUS & INWARD LOGS

Image: media_1793004301518.png

UI Analysis: Master-Warehouse Inventory Status showing top counters: Solar Panels (kW total), Inverters, ACDC Cables, and Other/Structure Kits with real-time inventory ledger breakdown.

4 Stage 4: Out for Delivery Station (Vehicle Loading & Gate Clearance)

Orders Awaiting Dispatch & 4-Step Horizontal Gate Clearance

URL: /WAREHOUSE-MANAGEMENT-PANEL/OUT-FOR-DELIVERY

BOS Kit ready hone ke baad order Out for Delivery queue me aata hai. Security gate clearance ke liye 4 stages poori ki jaati hain:

STEP 1: DELIVERY METHOD & GROUPING

- **Manual Delivery:** Custom vehicle aur driver arrange karna.
- **Auto Delivery:** Fleet matching system.
- **Ungroup EPCs:** Consolidated packages ko route-wise alag gadi me bhejne ke liye split karna.

STEP 2: TRANSPORT & VEHICLE DETAILS

- Recommended Vehicle: Tata Ace (1.5T) ya 14ft Eicher (4.0T).
- Vehicle Number, Driver Name & Mobile.
- Transporter Agency & Bilty / LR Docket No.

STEP 3: E-WAY BILL VERIFICATION

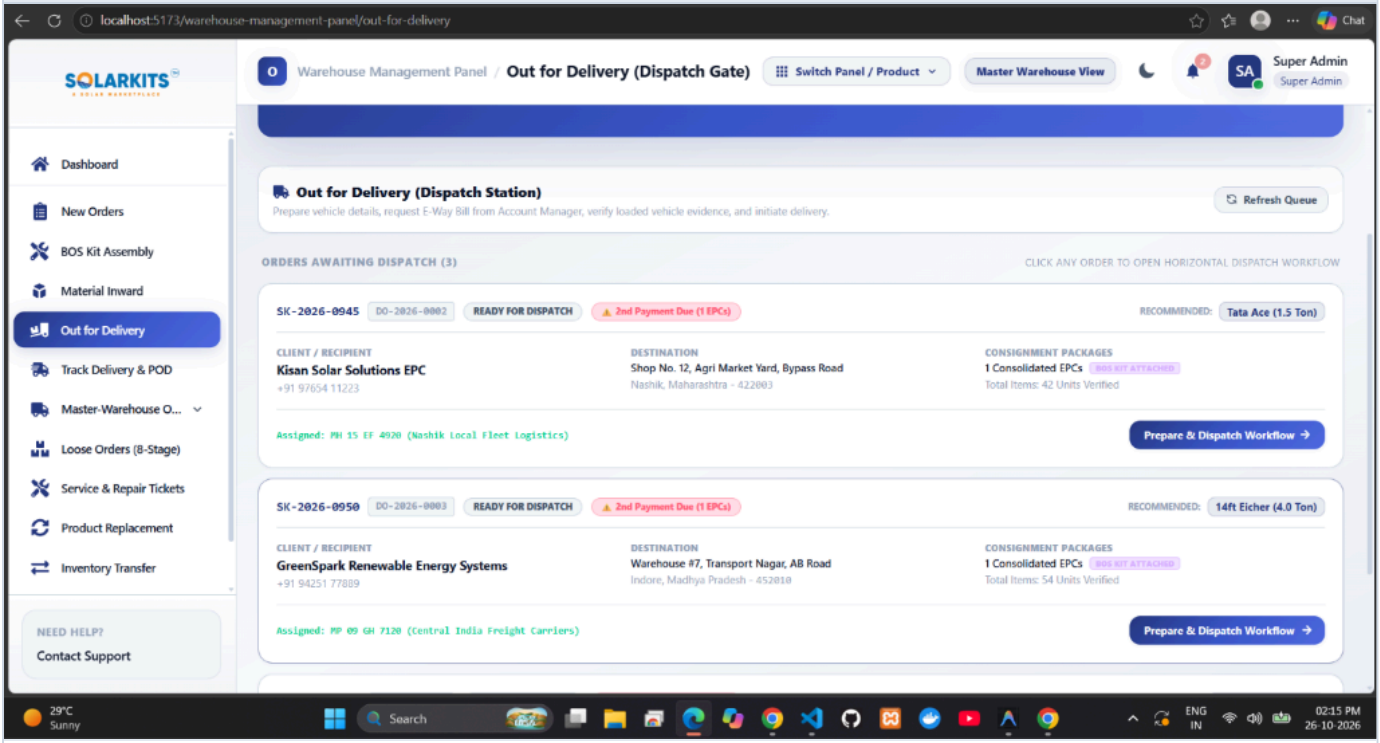

- Account Manager ko 1-click E-Way Bill request bhejna.
- 12-Digit E-Way Bill number & validity verify karna.

STEP 4: GATE CLEARANCE & REAR PHOTO UPLOAD

- Gadi ke piche loaded maal aur tamper seal ka Rear Photo upload karna.
- Security Gate Pass sign-off karke "Initiate Dispatch" dabana.

SCREENSHOT 8: OUT FOR DELIVERY - ORDERS AWAITING DISPATCH QUEUE

Image: media_1793004317952.png

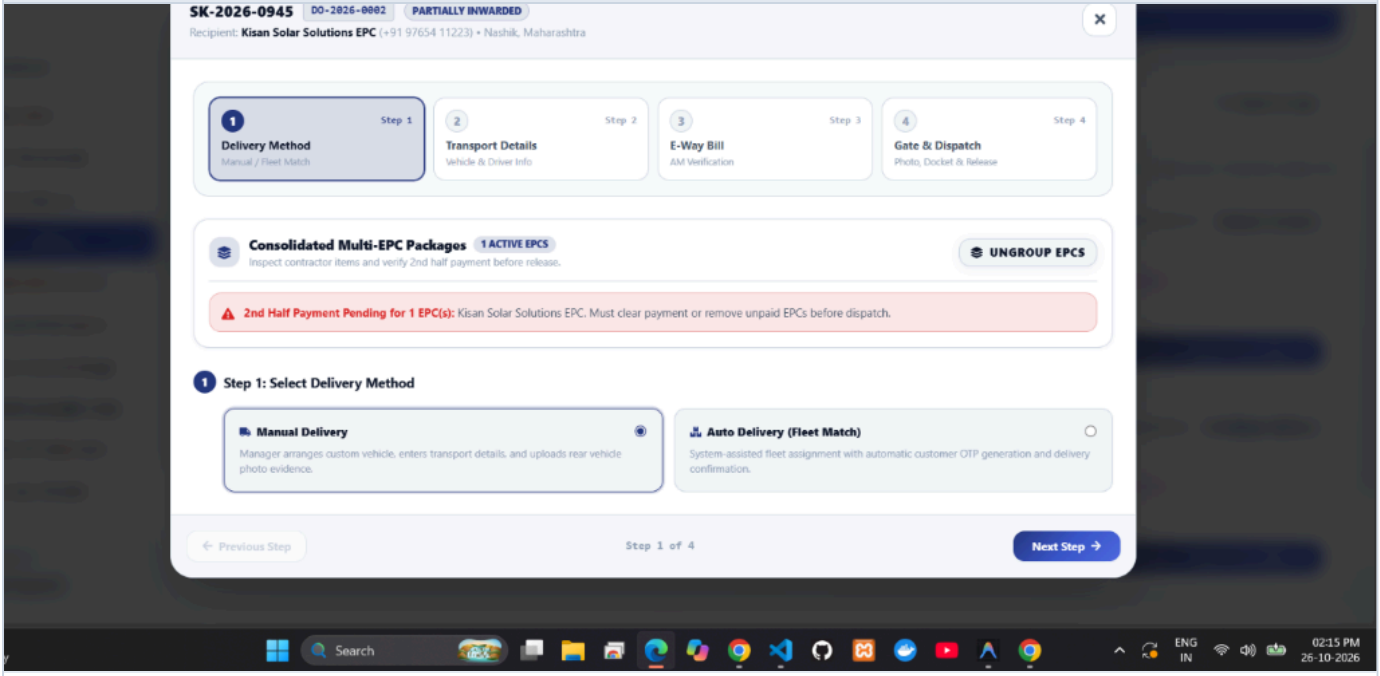

UI Analysis: Dispatch queue me `SK-2026-0945` (Kisan Solar EPC, Nashik, Rec: *Tata Ace 1.5 Ton*) aur `SK-2026-0950` (GreenSpark Systems, Indore, Rec: *14ft Eicher 4.0 Ton*). Right side me **Prepare & Dispatch Workflow →** button active hai.

Out for Delivery Modal: 4-Step Stepper & Multi-EPC Ungrouping

DISPATCH WORKFLOW MODAL

Prepare & Dispatch dabate hi modal khulta hai jisme operator step-by-step clearance deta hai:

SCREENSHOT 9: DISPATCH WORKFLOW MODAL (4-STEP STEPPER & UNGROUP EPCS) `Image: media_1793004336890.png`

UI Analysis: Top horizontal stepper: *1. Delivery Method (Active) → 2. Transport Details → 3. E-Way Bill → 4. Gate & Dispatch.* Niche **UNGROUP EPCS** button aur payment warning alert hai. Step 1 me *Manual Delivery* vs *Auto Delivery (Fleet Match)* select karke **Next Step** → dabaya jata hai.

5 Stage 5: Track Delivery & Dual Proof of Delivery (POD) Hub

Live Fleet Monitoring & Customer Handover Verification

URL: /WAREHOUSE-MANAGEMENT-PANEL/TRACK-DELIVERY

Gadi warehouse se nikalte hi Track Delivery hub me live track hoti hai. Delivery Journey Timeline 4 stages dikhati hai:

1. Material Inward (100% BOS Verified) ✓
2. E-Way Bill Issued (AM Approved) ✓
3. In Transit (Loaded & Dispatched) 🚚
4. Handover & POD (Pending Arrival) ⏳

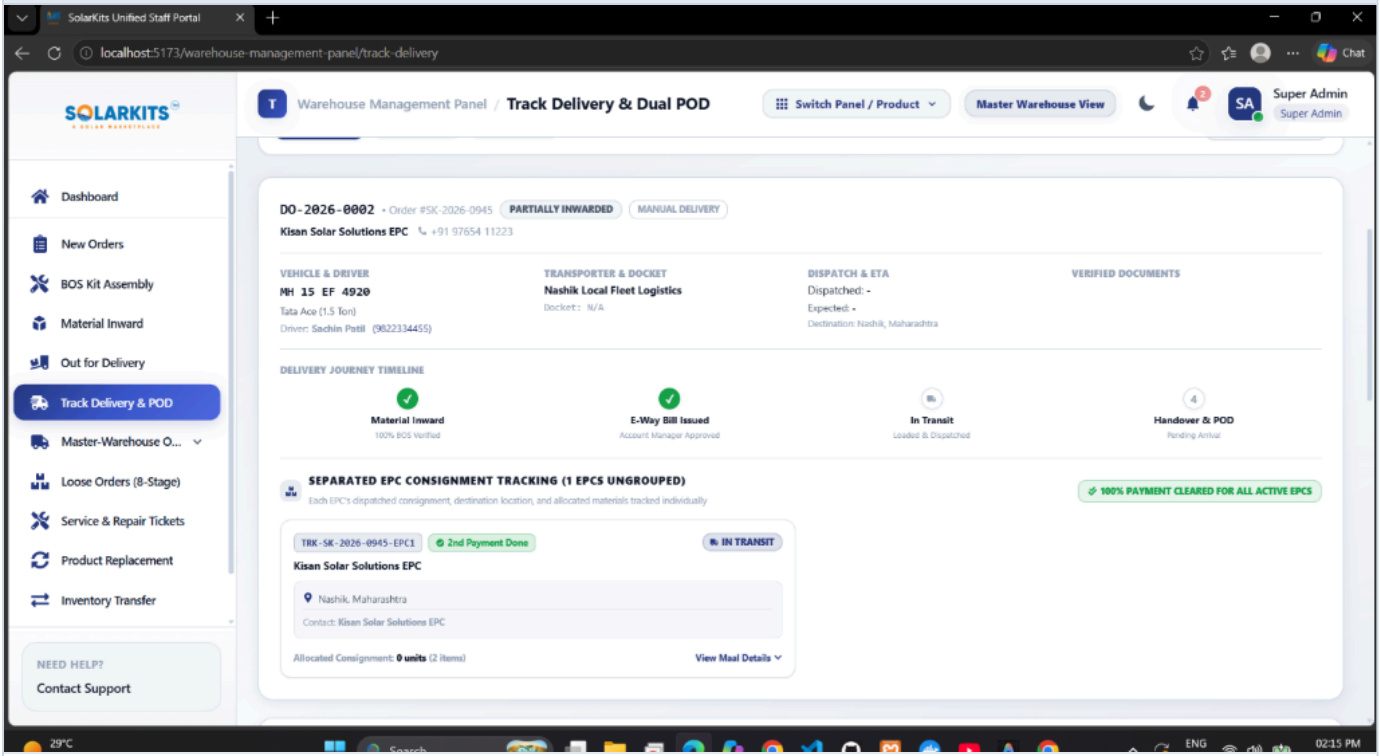

HANDOVER METHOD 1: 🔒 SECURE 6-DIGIT OTP HANDOVER

Truck customer location par pahuchte hi system se customer mobile par OTP jata hai. Customer items verify karke driver ko OTP deta hai. Portal me OTP match hote hi delivery 100% digital proof ke sath verify ho jati hai.

HANDOVER METHOD 2: 📸 DESTINATION PHOTO & SIGNED CHALLAN

Agar remote area me mobile network issue ho, toh driver site par panels/boxes utarne ka Destination Photo leta hai aur customer se signed & stamped delivery challan upload karta hai.

SCREENSHOT 10: TRACK DELIVERY & DUAL POD HUB (JOURNEY TIMELINE & EPC TRACKING) Image: media_1793004361746.png

UI Analysis: Order `DO-2026-0002` (Order `#SK-2026-0945`). Vehicle: `MH 15 EF 4920` (Tata Ace 1.5 Ton), Driver: *Sachin Patil (9822334455)*, Transporter: *Nashik Local Fleet Logistics*. 4-Stage Journey Timeline visible. Niche Separated EPC Consignment Tracking showing *100% PAYMENT CLEARED FOR ALL ACTIVE EPCS* aur *IN TRANSIT* status badge.

Executive Summary for Management & Boss

100% PRODUCTION READY

Yeh naya end-to-end flow SolarKits warehouse operations ko complete transparency, zero discrepancy, aur maximum speed provide karta hai:

1. **Buffer Fast-Tracking:** Warehouse me 7 kits buffer ready hone se manual assembly bypass hoti hai aur 1-click me kit allocate ho jati hai.

2. **Logistics Transparency:** Accounts se aane wale har indent ki vehicle, driver phone aur LR gate pass live dikhti hai.
3. **Zero Transit Fraud:** E-Way bill verification, rear loading photo, aur destination OTP/Photo POD se fake delivery ya transit dispute ka risk bilkul khatam ho jata hai.
